DOMAIN NAME & WEB HOSTING SERVICE

CITRAHOST
DOMAIN & HOSTING

DOMAIN NAME

Providing services around the Domain Name from Domain Name Registration, Transfer, to Reseller (only for .ID domain).

WEB HOSTING SERVICE

Having our own Data Center infrastructure support enables us to provide diverse Web Hosting professional services.

There are various types of Web Hosting Categories: Personal, Business, Email Hosting, Unlimited VPS (Virtual Private Server), Dedicated, Colocation and supporting services: SSL & Google Suite.

Domain Name (Domain Name) is your brand's Digital Asset. Make sure it's always active and never change hands. Use the Domain Name to support your business by enabling the storage media (Web Hosting) which professionally managed at Citrahost Data Center.

WWW.CITRAHOST.COM

SMS BROADCAST

SMS SENDER ID

An alternate identity for the sender of the SMS which consists of 11 characters (letters, numbers, and space).
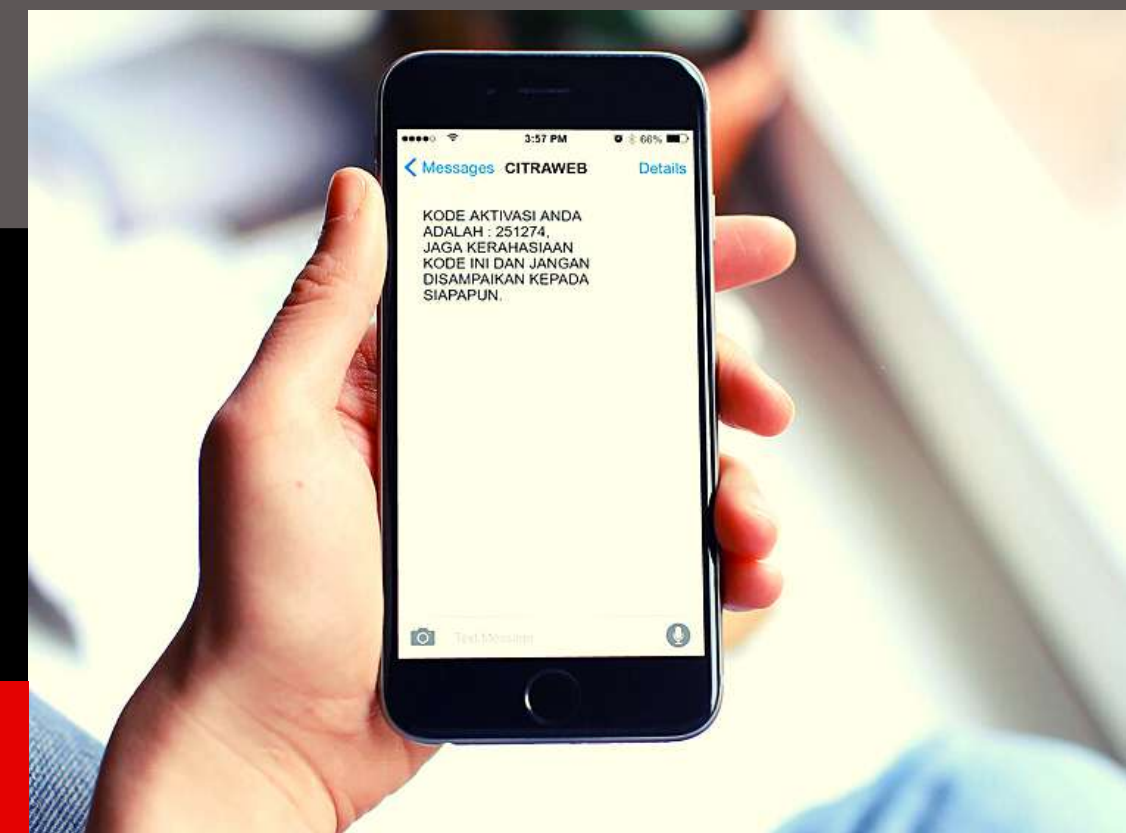

MASKING SMS

SMS sending service (Short Message Service) with Sender ID which can be adjusted according to your brand needs.

OTP SMS (ONE TIME PASSWORD SMS)

SMS delivery service (Short Message Service) using Sender ID that can send Unique Code to perform a certain verification stage.

SMS (Short Message Service) technology until today is still a part of the development of gadget devices. It's an effective alternative for sending messages.

With Sender ID service, you can send various type of messages such as promotion, announcement, or reminder. Using Sender ID make your brand more credible and trustworthy.

SMS BROADCAST

LBA SMS (LOCAL BASED ADVERTISING)

SMS delivery service (Short Message Service) with a Sender ID that sent messages simultaneously by the provider based on the choice of BTS location available in the desired area.

TARGETED SMS

SMS delivery service (Short Message Service) with a Sender ID that sent messages simultaneously by the provider based on more detailed target profiles such as; Gender, Age, Gadget Type, Nominal Credit Usage Mobile Per Month, Location, etc.

Masking and OTP SMS can be sent simultaneously to the target consumers through the Cloud SMS System which has various capabilities such as; API integration, Add SMS Target Number, SMS Group, Templates, Scheduler, From Excel, Blast, and SMS Token Usage Statistics.

WEB DEVELOPMENT

CUSTOM WEBSITE

Website creation services for the Personal & Business that can be customized according to your needs; Design, Features, and Production Process Period.
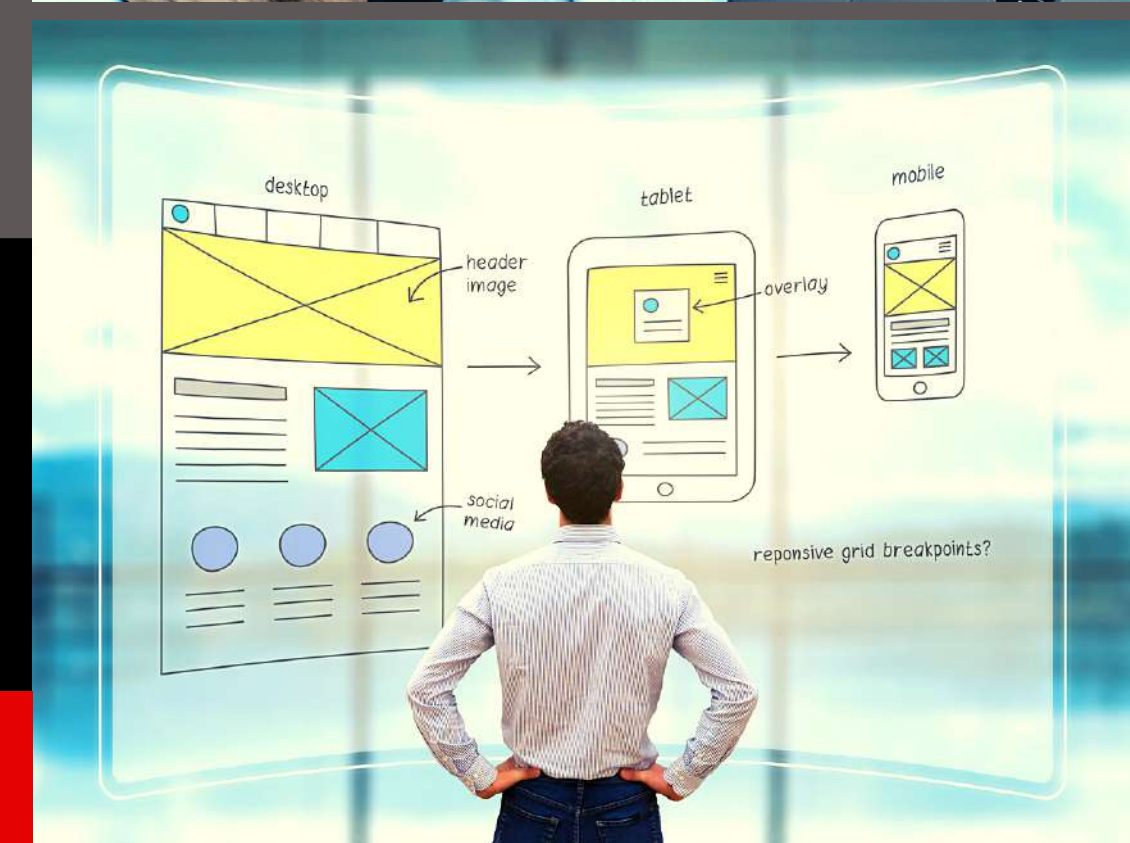

INSTAN WEBSITE

Website creation service with Design Themes and Feature Specifications options that has been determined and can be immediately online.
Available for school, profile, online shop, and landing page categories.

MAINTENANCE WEB

Website management services both in terms of content and technical support.

Having a website is the same as having online promotional media with broad reach without any restrictions on distance, space, and time. With technology advancesm in the era of IOT (Internet Of Things) nowadays, Website is one of must-have main platforms for your digital marketing strategy.

ONLINE PROMOTION

ADVERTORIAL & BANNER

Having an online business meaning you have to carry out various strategies promotion online using several media. One of it is doing online promotion by advertising on online media such as GudegNet News Portal – Jogja City Info (www.gudeg.net).

Providing news about art, culture, education, tourism, culinary, and Yogyakarta Directory, GudegNet is the best choice as an Online Promotion Media for businesses with target audience in the city of Yogyakarta and its proximity.

Selection of target consumers with specified locations and special characters is one part of an online promotion strategy. Therefore the selection of online media with unique and suitable concepts are important things to consider.
